

Dorsett and Jackson, Inc. Named West Coast Distributor for Shamrock

February 4th, 2016

Shamrock Technologies, Inc. proudly names Dorsett and Jackson, Inc. to our family of distributors in North America, covering sales and service of PTFE micropowders, texturing agents, and specialty wax powders on the west coast of the United States.

Shamrock chose Dorsett and Jackson based on their proven experience in core markets, excellence in customer service, robust technical knowledge, and large distribution network.

"I am thrilled about the partnership between Shamrock and Dorsett & Jackson," said Craig Collins, Shamrock Technologies' North American Sales Manager. "We see a lot of potential for growth on the west coast in emerging markets and D&J's longevity in that area is crucial to our success moving forward. This partnership is the perfect match of D&J's experience and Shamrock's reputation for quality, attained through innovation, control of raw materials, and manufacturing capabilities."

Ryan Yokoyama, Dorsett and Jackson's Vice President of Sales said, "Dorsett and Jackson, Inc. is incredibly excited to partner with Shamrock Technologies, a world class organization and the world's largest micronized PTFE producer. We look forward to a partnership that will flourish by complementing D&J's technically trained sales staff and Shamrock's state-of-the-art technology, production capabilities, and technical laboratories."

"Our main focus in this decision has been customer satisfaction," said Craig Collins, "We are confident Dorsett and Jackson will deliver the very highest level of customer service."

Shamrock Technologies is a global leader in PTFE micro-powders as well as a leading worldwide supplier of micronized wax powders, dispersions, emulsions and specialty products containing PTFE, custom wax alloys, natural waxes and specialty additives. Shamrock has manufacturing locations in Newark, NJ; Henderson, KY; Tongeren, Belgium and Tianjin, China. Its corporate headquarters is located in Newark, NJ.
